

Protection is never under lockdown.

Care and Maintenance tips

Machines under long shutdown require additional care
Here are some tips to ensure your machines and your business picks up right from where it left off.

Excavator care during the lockdown period

Park the machine on hard surface after cleaning.

Sanitize cabin door handles, keys and stay rod for protection.

Cover the machine to protect from dust and moisture. Disconnect the battery when not in use.

Check the oil levels and run the machine weekly for 20 mins for better lubrication purpose.

Fill up the fuel tank to avoid rusting. Drain water, if accumulated.

Remove the dry grease monthly and apply fresh grease.
